In introducing Professor FRED'K. MANN PAGE to our patrons and the public as toacher of Modern Languages in this institution, we ask attention to the following testimonial from Dr. Eschele de Vere, of the University of Virginia, which we consider a sufficient guarantee of Prof. Page's qualifications to fill this position:

'Mr. Fred'k. Mann Page possesses such valuable gifts from nature, such thorough knowledge of English Letters, and such rare familiarity with several European languages and their literature, that I consider him eminently qualified to fill a made available. I may add that his character and his principles tend to secure him the regard and good will of all who learn to know him. "SCHELE DE VERE.

VEGETINE I WILL TRY VEGETINE, HE DID, AND WAS CURED. Delaware, O., Feb'y. 16, 1877

Mr. H. R. Sterens: Dear Sir-I wish to give you this testimony, that you may know, and let others know, what Vegetino has done for me. About two years ago a small sore came on my leg; it soon became a large ulcer, so troublesome that I consulted the doctor, but I got no relief, growing worse from day to day. I suffered terribly; I could not rest day or night; I was so reduced my friends thought I would never recover; I consulted a doctor at Columbus. I followed his advice; it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier" for cleansing the blood from all impurities, curing Humors, Ulcers &c. I said to my family, I will try some of the Vegetine. Before I had used the first bettle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well at nights. I continued I could now sleep well at nights. I continued taking the Vegetine. I took thirteen bottles.
My health is good. The ulcer is gone, and I am able to attend to business. I paid about four hundred dollars for medicine and doctors be fore I bought the Vegetine. I have recommended Vegetine to others with good success. I al-

a most excellent medicine. Very respectfully yours, F. ANTHONIS

Mr. Anothoni is extensively known, especially among the Germans. He is well known in Cincinnati. He is respected by all.

IMPURE BLOOD.—In morbid conditions of the blood are many diseases; such as salt rhoum, ring worm, boils, carbuncles, sores, ulcers and pimples. In this condition of the blood try the Vegetine, and cure these affections. As a blood purifier it has no equal. Its effects are wonder-

VEGETINE OURED HER. Dorchester, Mass., June 11.

Dr. Stevens: Dear Sir-I feel it my duty to say one word in regard to the great benefit I have received from the use of one of the greatest wonders of the world; it is your Vegetine. I have been one of the grostest sufferers for the last eight years that ever could be living. I do sincerely thank my God and your Vegetine for the relief I have got. The Ithenmatism has pained me to such an extent, that my feet broke out in sores. For the last three years I have not been able to walk; now I can walk and sleep, and do my work as well as over I did, and I must say I owe it all to your blood purifier, Vegetine.

The ability of the United States to take all its bonds that may be sent hither, and nevertheless to accomplish specie resumption in January, depends in large measure upon the crops of this fall and the foreign demand for our products. Mr. Caird's estimate in the London Times is that, although the new crop is fully up to the average, England alone will require 104,000,000 bushels, and that the French, on account of a short crop, will be buyers instead of sellers. Letters from Germany show that the wheat crop is Southern Germany has been greatly injured by heavy rains, and a well informed writer believes that large purchases from this country will be made

for German consumption. A cable dispatch states that the crops in Roumania "have been very seriously damaged by recent rains." In Austria the yield is in average quantity, but inferior in quality because of rest, and in Hungary the harvest had been interrupted by bad weather. Advices from South Russia promises only "fairly good" crops. Paris advices of August 7 are that the yield is unsatisfactory, being interior both in quantity and also quality, except in Northern France, and that France may be ex pected to import 40,000,000 bushels of wheat. Thus all the information at hand gives promise of an unusually large demand for American

The latest information from the West does VEGETINE.—The great success of the Vegetine as a cleanser and purifier of the blood is shown beyond a doubt by the great numbers tables of the Pioneer Press place the yield in Minneseta at about 25,000,000 bushels or about 5,000,000 bushels less than the actual yield last year, while Minneapolis millers still estimate the yield at about 30,000, 000 bushels. Chicago statistics from 261 coup ties in the northwest show a loss of 6,500,000 bushels in spring wheat, while there is a very large increase in winter wheat. The advicefrom California continue entirely favorable, and the yield in Oregon is unusually large. Perhaps the best proof that the new crop is not on the whole deficient is found in the very large receipts of what at Chicago, which amount for the last four weeks to about 2,600,000 bushels, against about 1,100,000 bushels for the corres ponding weeks last year. At Milwaukee re ccipts are less than they were last year by about 10 per cent, the injury having been greatest in the very region from which that city draws its carliest supplies; but the loss is insignificant thus far, compared with the gain at Chicago. The receipts at Toledo have also been extraordinarily large. The shipments of grain from Buffalo were about as large last week as during the corresponding week of the previous year, and for the last four weeks they have been

much larger. In respect to the cotton crop, the August report of the Bureau of Agriculture indicates a condition considerably better than that of last year to the same date, and it is calculated by The Financial Chronicle that the improvement as reported by the department is equivalent to a promise of 400,000 bales more than last year's crop. But The Chronicle places little confidence in these reports, and its later advices by telegraph show that unfavorable weather has done damage in some localities. A crop only as large as that of last year, however, would perhaps pay the country quite as well as a larger yield, in view of the depressed condition of the manufacture and the recent strikes in

THE DEAD ALIVE.-The body-enatchers, while following their herrible occupation, were one dark night, driving over a desolate moor in a rural district in England. They had the body of a woman, enveloped in a large bag, sitting belt upright between them. On coming to a road side inn, they went into the hostlery to refresh thomselves. The hostler of the inn, not liking their looks, went out to the cart, and, to his horhor, found the corpse. Determined to play a trick on the men, he hurriedly removed the body to the stable, and then calmly and deliberately got into the sack and leizurely awaited

cotton mills in England .- N. V. Tribune

The two worthies, after smoking their pipes, left the warm room, untied the horse and preceeded on their journey. They had gone some distance, when one of the men inadvertently placed his hand on the face of the supposed dead. Quick as lightning he withdrew his hand, exclaiming to his comrade, "Jim, that corpse, is hot!" "Yes," exclaimed a voice from the bag, "and if you had been in Tophet as long as I have, you would be hot too." Alarmed beyond measure, the two jumped from the cart, and surried away for dear life. The hostier faced the horse's head toward the inn, and immediately advertised the horse and cart, but no own-er over appeared to claim the property.

Ray VARIOUS CAUSES -- advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYEK'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and re-moves and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak or sickly heir, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair and keeps it fresh and vigorous. E. B. Lead-
